OUR ONE COVENANT APPROACH

Uniting Strengths for a Comprehensive Cloud, Compliance, Cybersecurity and Managed Services Solutions

Covenant Global and Covenant Technology Solutions, as sister companies, offer a unique and comprehensive approach to cloud, cybersecurity, compliance and managed services, leveraging their combined strengths to provide clients with robust, end-to-end cloud, security and compliance solutions.

COVENANT GLOBAL | The Strategy and Compliance Powerhouse

Covenant Global specializes in cybersecurity strategy, compliance consulting, and partner channel management. With a focus on understanding and navigating the complex landscape of cybersecurity regulations, Covenant Global ensures that businesses not only meet but exceed industry standards for data protection and privacy. The company excels in:

- **Regulatory Compliance Consulting:** Expertise in HIPAA, CMMC, NIST, and other frameworks.
- **Cybersecurity Strategy Development:** Tailored strategies that align with business goals and regulatory requirements.
- **Partner Channel Management:** Building and maintaining strong partnerships to enhance cybersecurity offerings
- **Cloud Licensing:** Experience seamless multi-cloud transitions with minimal disruption and optimized efficiency across M365, Azure, AWS and GCP.

The Technical and Implementation Expert

Covenant Technology Solutions brings technical prowess with managed IT services and innovative cybersecurity solutions to the table. Specializing in the building, securing, and managing hybrid infrastructures, with end user support, using industry standard security practices. Key offerings include:

- **Managed IT Services:** Expertly support your employees and fully or co-manage your business technology in the cloud or on-premises.
- **IT Consulting:** Professional services to advise, architect, or build IT infrastructures with practical, cost-effective solutions tailored to business needs.
- **Microsoft Cyber Hardening:** Strengthen your technology defenses against evolving threats with our multi-phase Fortify security enhancement process.
- **SkyDesk 365:** Access your business applications from anywhere with Azure Virtual Desktop (AVD) and Cloud PCs to provide a secure, flexible, and reliable cloud workspace for organizations with remote or compliance needs.

Collaboration for End-to-end Security

The collaboration between Covenant Global and Covenant Technology Solutions ensures that clients receive a seamless, comprehensive cloud, cybersecurity, compliance and managed services that covers both the strategic planning and practical implementation.

- 1 INTEGRATED APPROACH:** Starting with a strategic plan developed by Covenant Global, Covenant Technology Solutions steps in to execute the technical aspects, ensuring that strategies are perfectly translated into effective security measures.
- 2 CUSTOMIZED SOLUTIONS:** By working together, both companies can offer tailored solutions that meet the specific needs of their clients, ensuring both compliance and operational efficiency.
- 3 ONGOING SUPPORT AND COMPLIANCE:** Post-implementation, the partnership provides ongoing support and compliance consulting, ensuring clients' cybersecurity measures remain up-to-date and effective against evolving threats.

Why Choose Covenant Global and Covenant Technology Solutions?

Comprehensive Expertise

From strategic planning to technical execution, our integrated approach covers all bases.

Peace of Mind

With ongoing support and updates, your cybersecurity measures will evolve alongside emerging threats, ensuring longterm protection.

Customization

Tailored solutions that precisely meet your business needs and compliance requirements.

Efficiency and Compliance

Leveraging the synergy between strategy and technology to achieve optimal operational efficiency and compliance.

Covenant's Tailored Services:
