

# Fortify Your Business: Secure Microsoft 365 Today!

Unmatched  
Microsoft Expertise

**Microsoft**  
Solutions Partner

Security  
Modern Work  
Infrastructure  
Data & AI  
Digital & App Innovation

Future-proof your **Microsoft 365** setup with comprehensive coverage across all phases of cybersecurity, from identity protection to data security.

Fortify is Covenant Global's cutting-edge solution for bolstering your Microsoft 365 security. Designed with industry best practices and compliance frameworks like NIST 800-171 and CIS 18 in mind, Fortify transforms your M365 environment into a secure fortress.

## The Fortify Process Includes

- 1 Assessment**  
Evaluate your current Microsoft 365 setup and licensing.
- 2 Implementation**  
Enable key security features such as MFA, Defender, Intune, sensitivity labels, and DLP policies.
- 3 Hardening**  
Strengthen your security to meet compliance standards.
- 4 Ongoing Support**  
Continuous monitoring and management to maintain robust security.
