¹ Results are based on interviewed customers. "The Economic Value of Migration On premises SQL Server Instances to Microsoft Azure SQL Solutions," a commissioned study conducted by The Enterprise Strategy Group on behalf of Microsoft, October 2020.

² Customers may see savings estimated to be between 11 percent and 65 percent. The 65 percent savings is based on one M64dsv2 Azure VM for CentOS or Ubuntu Linux in the East US region running for 36 months at a pay-as-you go rate of ~\$4,868.37/month vs. a reduced rate for a 3-year savings plan of ~\$1,703.44/month. Based on Azure pricing as of October 2022. Prices subject to change. Actual savings may vary based on location, instance type, or usage
